Summary

Senior Full-Stack Developer with 6+ years of experience in React, Vue.js, TypeScript, and Node.js, specializing in AI, CRM, and e-commerce solutions.

Key Achievements:

▢ At Subbly.co, I enhanced subscription setup UX with Vue.js 2/3, cutting setup time by 20%, and built an AI onboarding chatbot, increasing completion rates by 25%.

▢ At Woki One, in a fast-paced startup, I led a 3-person team to build a modular CRM system under tight deadlines, migrating from Vue 2 to Vue 3, achieving a 95+ Google PageSpeed score.

▢ At Capgemini Engineering, I developed a React-based big data system, handling 10M+ data points for analytics forecasting.

▢ At Malevich, I built a React and GraphQL back panel for a delivery company, streamlining operations for 1,000+ users.

▢ In digital marketing, I designed automated funnels with WordPress, boosting engagement by 15%.
